Nationality: Pakistani • Availability: Immediately Available • Open to Relocation

Professional Summary

Results-driven Full Stack Developer and Software Engineer with 3+ years of hands-on experience designing, developing, and deploying scalable web applications. Strong proficiency in JavaScript, TypeScript, and modern frameworks including React.js, Node.js, Express.js, and Next.js. Proven track record in building robust RESTful APIs, scalable database architectures, real-time web platforms, and responsive user interfaces. Adept at delivering high-impact, business-focused solutions in agile environments with a strong focus on clean code, performance, and user experience.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, WebSocket

Database: MongoDB, MySQL, PostgreSQL, Stored Procedures, Database Design and Optimization

Tools/Other: Git, GitHub, VS Code, Figma, Foreman, Cloudinary, API Integration, Manual & Automated Testing

Work Experience

Full Stack Developer – Ash Cloud Company

Apr 2025 to Present

- Developing scalable web applications using React.js and Node.js.
- Implementing optimized REST APIs and database schemas with MongoDB.
- Leading UI enhancements and ensuring responsiveness across all devices.

MERN Stack Developer – BrightCodeLab

Sep 2024 to Mar 2025

- Developed end-to-end web applications using the full MERN stack with scalable MongoDB schemas.
- Built reusable React components and integrated third-party APIs to extend product functionality.
- Collaborated with UI/UX designers to deliver responsive, pixel-perfect interfaces.

Frontend Developer – Twenty Four Storage Company

Dec 2023 to Aug 2024

- Built and maintained frontend web applications using React.js, JavaScript, and Tailwind CSS.
- Integrated RESTful APIs and implemented responsive UI components for storage management systems.
- Collaborated with backend developers to ensure seamless data flow and optimal performance.

Frontend Developer Intern – Tech Pioneer

Apr 2023 to Nov 2023

- Focused on React.js development and reusable component architecture during a structured internship.
- Contributed to UI/UX improvements and participated in agile sprint planning and code reviews.
- Gained end-to-end exposure across the full development lifecycle from design to deployment.

Key Projects

Sehatkor – Healthcare Platform | sehatkor.pk

TypeScript | MERN Stack | WebSocket | Cloudinary | Redux Toolkit

- Engineered a full-scale healthcare platform connecting patients with doctors, hospitals, labs, and pharmacies in real time.
- Integrated WebSocket-based live chat and a seamless appointment booking system with JWT-secured authentication.
- Designed a scalable backend architecture capable of supporting a rapidly growing medical service ecosystem.
- Managed media assets via Cloudinary and handled complex global state with Redux Toolkit.

KCD Notify – Administration Web Application | kcd-notify-5jq3.vercel.app

MERN Stack | Node.js | Email API | WhatsApp API | React.js

- Developed an administration-based web application for Khyber College of Dentistry (KCD) to manage communication and result distribution.
- Implemented automated delivery of results, notifications, and important updates to students and staff via email and WhatsApp.
- Designed an intuitive admin dashboard enabling the college administration to manage and broadcast information efficiently.

Medicore PMS – Desktop Pharmacy Management System

Electron.js | React.js (TypeScript) | Node.js | PostgreSQL | SQLite

- Architected a fully offline-capable desktop PMS using Electron.js with robust TypeScript integration and zero internet dependency.
- Built a real-time POS billing engine supporting both Retail and Wholesale transactions with instant receipt generation.
- Designed automated daily reporting for sales, purchases, stock movement, and inventory levels.
- Implemented a subscription-based licensing system enabling scalable multi-pharmacy deployments.

Education

BS Software Engineering – Islamia College University, Peshawar

2020 to 2024

Certifications & Achievements

- Meta, Programming with JavaScript (Coursera / Meta)
- Meta, Basics and Advanced React (Coursera / Meta)
